

Chief, Department of Medicine

An extraordinary leadership opportunity at a pace-setting health system

Rochester General Health System in Rochester, NY, is seeking a dynamic physician with a commitment to excellence for our Chief of Medicine opportunity.

This outstanding candidate will have at least 5 years clinical experience, be board certified in specialty or subspecialty, and demonstrate clinical excellence and administrative leadership.

Key components of this position include:

- Lead the department's strategic, clinical and operational activities within the context of RGHS goals and priorities
- Work with a diverse group of key stakeholders, including system administrative and physician leaders to expand, improve and strengthen the department operations, functions, programs and integrated clinics/practice settings across the system
- Play a key role in collaborating in the development of geographically and clinically integrated service lines, including the continuum of inpatient and outpatient care and services across the system
- Develop relevant quality and performance metrics, and tracking trending and report methods

- Champion support for the residency program and oversee the education of medical students, PA students and residents rotating through the department
- Ensure compliance with all regulatory and accreditation requirements
- Function as a change agent to motivate and drive programmatic innovation, collaboration and clinical integration by recognizing intrinsic motivation factors, and achieving high value outcomes

The Department of Medicine is a focal point for many of Rochester General's clinical services.

- 394 physicians with a wide array of medical subspecialties including Endocrinology, Gastroenterology, Geriatrics, Hematology/Oncology, Infectious Disease, Palliative Care, Pulmonary Medicine/Critical Care, and Nephrology
- Scope of service includes inpatient medical care at two hospitals, ambulatory services, long term care and educational programs
- Fulltime General Medical Unit provides Hospitalist services and Primary Care Physicians who provide care for patients in the community in more than 40 hospital-owned and private practices
- Internal Medicine Program Residency Program has 61 residents, and has provided resident training for more than 30 years

Rochester General Health System strives to be the provider of choice in Rochester and the Finger Lakes region.

- Region's third largest employer with almost 8000 employees and more than 1200 physicians
- Dedicated to providing clinically superior, patient-centered care.
- One of the fastest growing and most acclaimed healthcare systems in NY
- Fully integrated healthcare delivery system

- World-class clinical expertise with unparalleled personalized attention and compassionate care
- Greater Rochester Independent Practice Association (GRIPA) fosters collaboration among nearly 1,000 member physicians
- Eight affiliates, a high value provider network of community partnerships
- Continually improving and expanding services, facilities, technology, and staff

We are the proud recipient of many distinctions including:

- Top 100 Integrated Health Network
- #3 in New York State for Overall Hospital Care
- TOP Performing Hospital
- #1 in NYS and in top 4 nationally for Cardiac Care
- Stroke Gold-Plus Achievement Award
- Nurse Magnet Designation since 2004
- Exemplar Hospital in Infection Prevention
- Breast Center of Excellence

Situated on the shores of Lake Ontario

and near the Finger Lakes, Rochester NY's exceptional quality of life offers the arts, sports, and culture of a big city and the comfort and easy commutes of a small town.
